

A permanent or semi-permanent, robust, off the grid power solution. Custom made to your requirements, PowerSkids allow you to bring power to any obscure location, from remote towers, to well sites, mines, mountain tops, and the outer most location on your farm.

Power Options of Any Combination.

Flexible configurations of Solar Panels, Diesel, Fuel Cells, or Wind Power for what your site needs. We recently deployed a skid with 5000 watts of combined solar and 4 wind turbines which met the requirements for 800 continuous watts of power supporting up to 5 microwave radios and several WiFi radios.

Power Anywhere:

- ✓ **Engineered for any location from the Arctic Circle to the Sahara Desert**
- ✓ **Deployable by truck, helicopter or crane**
- ✓ **Link multiple skids for even greater power**

Equipment Supported:

- ✓ **Microwave radios**
- ✓ **Video Cameras**
- ✓ **WiFi Radios**
- ✓ **Voice Radios**
- ✓ **SCADA Communications**
- ✓ **Appropriate Controls**
