

## **Denver, CO – October 30, 2017 - KNS Communications Consultants to Partner with Domo Tactical Communications and Ceragon Networks, Ltd. at PORTCON 2017.**

KNS, a global integrator of outdoor wireless communications solutions, is a Gold Sponsor at PORTCON 2017 in Long Beach California November 27<sup>th</sup> -29<sup>th</sup>, 2017. KNS is also partnering with Domo Tactical Communications and Ceragon Networks, Ltd. at the event. In addition to our sponsorship, KNS director of business development, Don Leyn, will be presenting his insights on the challenges and solutions using wireless technologies in the port industry.

KNS is a wireless solutions provider that specializes in solving the challenges present in outdoor environments where interference, topography and logistical challenges are unique. With over 38 years of experience, a full staff of RF engineers and deployments on all seven continents, KNS has the experience to engineer, deploy and maintain wireless solutions in every environment.

Domo Tactical is leading the way in future surveillance operations within high performance overt and covert video, audio, tracking and cellular solutions, along with developing cutting edge technologies for the wireless broadcast market. They offer secure and reliable security and surveillance products, along with high performance wireless broadcast systems to support Port operations.

Ceragon Networks Ltd. is the world's #1 wireless backhaul specialist. They help operators and other service providers worldwide increase operational efficiency and enhance end customers' quality of experience with innovative wireless backhaul solutions. Port operators can use their solutions to deliver 4G, mission-critical multimedia services and other applications at high reliability and speed.

More Information on PORTCON:

PORTCON is a unique professional learning opportunity for the entire industry designed to help management professionals stay abreast of current and emerging topics and trends in the industry. Attendees learn from the speaker presentations and panels, from the solution providers in the expo, and by networking with their peers. To learn more about PORTCON head to the [event website](#).
