WirelessOptix™

An Engineering Service

by KNS Communications

Remotely Monitor Outdoor WiFi Network Health.

WirelessOptix™ is an engineering service that continuously monitors the health of a mine's outdoor WiFi network.

- Monitor KPIs
- Regular detailed reporting
- Analyze, investigate and optimize
- Periodic on-site evaluations

Increase Value

Decrease Downtime

A SOLUTION FOR:

✔ Cluttered networks

✔ Interference

✔ Poor capacity

✔ Poor channel planning

Everything depends on a healthy network.

BENEFITS:

✔ Pro-actively make adjustments

✔ Maximize KPI performance

✔ Ensure maximum productivity

✔ Efficient use of resources – RF engineer monitoring

✔ Safety system performance

✔ Less expensive than site visits

Continuous Improvement
